Profile

Runs a live n8n demo that sorts messages with AI, looks up the company in the Czech ARES register and drafts a reply for the team to review. Background: 3D game assets for VR simulations (Digiteq Automotive), HMI front-end for Škoda.

Work experience

Independent projects: automation, web and real-time graphics · Self-directed — ongoing

- Live n8n lead-sorting demo: Claude API with a rules fallback, 102 unit tests, self-hosted in Docker
- Bilingual React + TypeScript portfolio site; one command checks and publishes it
- Unreal Engine 5 live VJ engine in C++ and HLSL, played with a gamepad
- TouchDesigner GLSL visualisers
- Houdini, Blender and UE5 pipelines driven from Python
- Concept, system design, art direction and testing; code written with AI coding agents under my direction

Bartender · Strahov Monastery Brewery — 2024 – 2026

- Guest service under pressure in a busy Prague brewery, in Czech and English

3D Artist · Digiteq Automotive, Virtual Reality Lab — 2023 – Mar 2024

- Game-asset creation: modelling, texturing, optimisation
- Preparing optimised assets for 3D simulations in VR

3D Artist (internship) · Cinesco — Jun – Sep 2023

- Game-asset design, modelling and sculpting

HMI Front-end Developer · Digiteq Automotive, DTF-D — 2023

- HMI skinning
- UI installation for Škoda, debugging and testing

Market Researcher · Copy General Technologies — 2022

- Research of the Czech market and 3D-print technologies
- 3D modelling, consulting, customer service

Printing Operator, junior → senior · Copy General — 2019 – 2022

- Typography design services and their sale
- Order fulfilment, email and phone communication

Skills

Automation & AI: n8n, Claude API, REST APIs and webhooks, Claude Code; directing AI coding agents that write the code; concept, system design, testing and review are mine

Tooling: Docker, Git & GitHub CLI, PowerShell, FFmpeg, headless Chrome

Web & UI: TypeScript, React, Vite, Tailwind CSS, HTML & CSS, three.js, Figma; HMI skinning, UI debugging and testing

Code & shaders: JavaScript, Python, C++, HLSL, GLSL, VEX

3D art: Blender (modelling, sculpting, Geometry Nodes, bpy automation), Substance 3D Painter, Houdini (Vellum, Karma), Photoshop; game-asset modelling, texturing and optimisation for VR

Real-time & engines: Unreal Engine 5 (C++, Python editor scripting), TouchDesigner, Unity; frame-time budgets, GPU particle and liquid simulation

Hands-on experience: Next.js; PostgreSQL, Prisma, Supabase; ad platform APIs (Google Ads, Meta, Sklik); scraping; MCP

Soft skills: teamwork, communication, creativity, management, presentation, organisation

Education

Secondary School of Glassmaking · Kamenický Šenov · glass cutting and engraving; design concepts — 2013 – 2017

Portfolio

aspandos.github.io: case studies with video and breakdowns, including Lead Intake, AudioVJ, Perspectiva, Liquid and Fish Weather.
